

Fill Your iPhone with Entertainment using SYC 2

SYC 2 (aka Softorino YouTube Converter) is a desktop class application for downloading any video, music, ringtones to Apple devices or computer.

It's most brilliant feature is trimless ringtones – now any user can turn any of 10 Billion YouTube videos into a unique ringtone.

YouTube has 10 billion videos. There are 15 million videos on Daily Motion. More than 1 million on Vimeo. And the numbers are growing. What if you had the freedom to do anything with these videos? Watch them. Save for later. Send any video on your iPod Classic. Turn it into a special ringtone for your iPhone...

...Now you can – **Introducing Softorino YouTube Converter 2.**

What is SYC 2?

Softorino YouTube Converter 2 is a Mac & Windows companion app for every YouTube lover. It quickly downloads any video, audio from YouTube to desktop computer or any Apple device ever created. Not only it supports videos and music, it can also turn any YouTube video into a trimless iPhone ringtone.

What Pain does SYC 2 Solve? aka Why was it created?

SYC 2 by Softorino makes it easy to download and convert any video or song, be it a YouTube movie or a cool SoundCloud track. Now users can have their favorite videos or music in hand, easy to watch or listen on their Apple devices.

What makes SYC 2 stand out:

- any YouTube video can be turned into an iPhone ringtone. Without trimming or iTunes;
 - users can seamlessly download and convert music to their legacy iPods
 - because of built-in browser, it's now even easier and faster to find and download any YouTube video;
 - you only have to copy the URL and the converter will do the rest.
-

How Does it work?

Here's how to easily convert any YouTube video into a ringtone for your iPhone:

1. Launch SYC 2 & Connect your Apple device
2. Copy the URL of the desired YouTube video
3. Select 'Ringtone' & hit convert.

It's THAT simple! Immediately the ringtone will be available in your iPhone Settings>Tones section

What's the story behind SYC 2?

SYC 2 is the second, refined iteration of famous Softorino YouTube Converter. Released a year ago, original SYC was the first tool ever to save YouTube videos straight to iPhone's default apps. It allowed users to watch their favorite videos on-the-go without ads and commercials. 12 months later

the application evolved into a universal music, video or ringtone downloader for PC and Mac.

Pricing & Availability:

SYC 2 is available for Mac and Windows computers. The free trial lasts 24 hours. Users can purchase the lifetime license for \$19.95 (USD).

System Requirements:

The app requires MacOS 10.9/Windows 7 or above. All Apple mobile devices are supported starting from iOS 5 including every single Apple iPod ever created.

About Softorino:

Softorino is a young & professional team of software engineers. We make excellent MacOS & PC software that changes the way you use Apple devices. Known for creating WALTR, WALTR 2, iBetterCharge.
